Programme Making for Radio-Jim Beaman 2006-09-27 Programme Making for Radio offers trainee radio broadcasters and their instructors focused practical guidelines to the professional techniques applied to the making of radio shows, explaining how specific radio programmes are made and the conventions and techniques required to produce them. This book describes how and why these methods are applied through the use of a behind-the-scenes glimpse at working practices and procedures used in the industry. It considers the constraints and incentives that limit or stimulate creativity and innovation within programme production. Programme Making for Radio examines the individual roles and responsibilities of the production team and the importance of team-working skills. Chapters focus on the specific requirements of specialist programmes and offer advice from a range of programme makers working in local and national broadcasting. There is a case study example that follows the progress of a feature programme from pitching the original idea, through assembling material to final transmission. Programme Making for Radio includes: a clear description of the role of each member of the programme making team, their duties and responsibilities practical tips on interviewing, mixing and presenting explanations of the key elements that make up a radio programme such as clips, wraps, packages, features and interviews with a full glossary of technical terms. This book is informative, accessible and compact and allows coverage of the whole range of skills needed by the radio professional in the studio and on location.

Broadcast News and Writing Stylebook -- Pearson eText-Robert A. Papper 2015-07-22 Updated in its 5th edition, Papper's Broadcast News and Writing Stylebook is the first volume required to produce radio and television news. This book clearly and concisely outlines the rules of broadcast news writing, reporting, grammar, style, and usage. With chapter-by-chapter coverage of story types, from business stories to crime and legal reporting, education, government, health, the environment, weather, and sports, the Broadcast News and Writing Stylebook lays out the particulars of creative writing for all aspects of news writing. Because the news business has changed -- and continues to evolve -- so has this text. Written by the person who has overseen the major industry research for the past 18 years, the latest edition looks into the future of news by exploring the news of business. Citing the latest data and trends, the book takes a hard look at where the industry stands and where it appears to be headed.

That's the Way It Is-Charles L. Ponce de Leon 2016-09-09 Ever since Newton Minow taught us sophisticates to bemoan the descent of television into a vast wasteland, the dyspeptic chorus of jeremiahs who insist that television news in particular has gone from gold to dross gets noisier and noisier. Charles Ponce de Leon says here, in effect, that this is misleading, if not simply fatuous. He argues in this well-paced, lively, readable book that TV news has changed in response to broader changes in the TV industry and American culture. It is no longer in the hands of the same pioneers as before; it is now a more diverse industry. This book is a must-read for anyone interested in the history of American television news, spanning more than six decades, from "Camel News Caravan" to "Countdown with Keith Oberman" and "The Daily Show." Starting in the latter 1940s, television news featured a succession of broadcasters who became household names, even presences: Eric Sevareid, Walter Cronkite, David Brinkley, Peter Jennings, Brian Williams, Katie Couric, and, with cable expansion, people like Glenn Beck, Jon Stewart, and Bill O'Reilly. But behind the scenes, the parallel story is just as interesting, involving executives, producers, and journalists who were responsible for the field's most important innovations. Included with mainstream network news programs is an engaging treatment of news magazines like 60 Minutes and 20/20, as well as morning shows like Today and Good Morning America. Ponce de Leon gives ample attention to the establishment of cable networks (CNN, and the later competitors, Fox News and MSNBC), mixing in colorful anecdotes about the likes of Roger Ailes and Roger Ailes. Frothy features and other kinds of entertainment have been part and parcel of TV news from the start; viewer preferences have always played a role in the evolution of programming. Although the disintegration of a national culture since the 1970s means that most of us no longer follow the news as a civic obligation, Ponce de Leon places his history in a broader cultural context, emphasizing tensions between the "public service" mission of TV news and the quest for profitability and broad appeal.

Making Radio-Shawn VanCour 2018-03-01 The opening decades of the twentieth century witnessed a profound transformation in the history of modern sound media, with workers in U.S. film, radio, and record industries developing pioneering production methods and performance styles tailored
Practical Journalism - Helen Sissons 2006-10-19 Practical Journalism: How to Write News introduces the beginner to the skills needed to become a journalist in the digital age. The book draws on interviews with dozens of working journalists. They share their thoughts on the profession and we watch them work - selecting stories, carrying out interviews and writing scripts. There are chapters on interviewing, research techniques and news writing. Further chapters cover working in broadcasting and online. Media law and ethics are also included. Most journalists believe they work ethically although few have set rules and others admit to being pressured to behave unethically. This book looks at how journalists can work more ethically and provides a guide for beginners. The book is easy to read. Each chapter concludes with activities and a list of further reading. A glossary of terms is included at the end of the book.

Television Production & Broadcast Journalism - Phillip L. Harris 2011-03 Television Production & Broadcast Journalism provides students with basic technical skills necessary to enter the television production industry as a production assistant, and introduces broadcast journalism theory. The text provides an overview of the equipment, job responsibilities, and techniques involved in both traditional studio production and remote location work. The activities and processes involved in each phase of production are presented and reinforced with realistic examples, numerous photos showing students in actual production situations, and engaging student activities. Broadcast journalism coverage includes ethics and news judgment, types of stories, news writing, preparing news packages, and conducting interviews. The broadcast journalism concepts address skills and qualities required in the industry, but also provides a classroom-and on the job-basics and practices. The text places a strong emphasis on the importance of vocabulary and the correct use of technical terms. In addition to the glossary at the end of the textbook, a running glossary within the chapters provides an immediate formal definition of terms, as they are addressed in the text of the chapter. Talk the Talk explains the difference in meaning between consumer and industry-specific terms, and clarifies the proper use of industry terminology. Proper use of industry terms is an important factor in becoming a successful television production professional.

Television News - Ivor Yorke 2013-04-03 A straightforward account of the editorial and production processes used by journalists to bring television news to the viewer. It is an invaluable text for students on journalism courses, print and radio journalists moving into television and TV journalists wishing to update their knowledge. Takes into account the latest practices and issues in the television industry. This fourth edition has been thoroughly updated to take account of the latest practices and issues in the television industry. It includes new illustrations of developments from both a technological and an editorial perspective. In a changing broadcasting environment, newcomers to television journalism are finding themselves entering a world in which an empathy with technology is as important as a way with words. The newsroom itself is now completely computerized and consequently new skills and working methods need to be mastered to take account of the revolutionary advances.

Essential Radio Journalist - Paul Chantler 2009-05-29 'Incredibly comprehensive. Learn and understand this lot and you will have a fine grasp' Jon Snow 'This sets the standard for every radio newcomer' - Andy Ivy, Editor, Sky News Radio In an age of infinite choice made possible by early radio writers and programmers, production techniques developed by studio engineers, and performance styles cultivated by on-air talent, it shows how radio workers negotiated a series of broader industrial and cultural pressures to establish best practices for their medium that reshaped popular forms of music, drama, and public oratory and laid the foundation for a new era of sound entertainment.

The Art of Editing in the Age of Convergence - Brian S. Brooks 2015-10-05 The Art of Editing continues to be the standard by which editing texts are judged, offering the most comprehensive and up-to-date discussion of editing available. Long viewed as the "classic" in the field of editing, The Art of Editing continues to evolve to meet the needs of today's students. In addition to a focus on traditional newspaper editing, the authors pay significant attention to the other areas in which students are increasingly finding jobs: online media, corporate magazines, broadcasting, public relations and advertising. The tenth edition of The Art of Editing details the major changes revolutionizing the media industry and prepares students to work in convergent environments, where skill in print, broadcast and online operations is essential.
